

# CONSTRUCTION UPDATE

## Joseph & Rosalie Segal Family Health Centre

January 20, 2015

The Joseph & Rosalie Segal Family Health Centre (JRSFHC) will be a new, eight-storey mental health and addictions facility on the VGH campus.

Providing 100 inpatient beds and a range of outpatient programs and services, the JRSFHC is scheduled to open in 2017.

### Construction Hours: 7 am to 4 pm

#### Week of January 19

- **Heavy traffic:** Increased traffic activity, especially of heavy trucks.
- **Landscaping:** Removal of trees and parking curbs outside the Blusson Spinal Cord Centre.
- **Locating utilities:** Increased activity onsite as specialists work to locate gas lines.

#### Week of January 26

- **Digging and demolition:** Increased noise and some vibration are to be expected when digging begins and demolition of the last remnants of Willow Chest Centre resumes.

#### For your safety

- **Plan ahead:** Vehicular and pedestrian traffic through the VGH inner courtyard will be limited. Plan for trips to take more time or, better yet, use an alternate route to reach your destination.
- **Follow designated paths:** Use the designated pedestrian crossings, marked pedestrian paths and sidewalks to stay safe. Jaywalking and foot traffic outside the designated areas put your safety at risk.
