

# Picture yourself

## IN VCH'S PRIORITIES!

Engage your right brain and show us how you or your team are “colouring outside the lines” to make positive changes inside one of these priorities or supporting strategies:

- Primary & Community Care
- Surgical Services
- Rural Health Services
- Information Management
- Health Human Resources

We're not judging your abilities as an artist, but just in case we need a hint, tell us, what does your picture show?

Name & site where you work
